

Next Lap....

Finally the wrap-up for the final quarter of 2009. This is the second Newsbits by Mobistudios. Time ticked at high speed in the last quarter with progressive growth in the scope of jobs coming our way. We've manage to clinch a wide range of Branding activities which has helped in building our portfolio and also have a good feel of the potential market out there. We will be pulling in more resources for the next quarter to widen the reach and also services to our customers.

Stay tuned for the new upcoming services at Mobistudios for 2010. The team will move forward in the first quarter of 2010 to offer Multimedia and Branding services expanding from our existing Photography and Videography services. We will move forward in a great new year spirit and build upon the firm grounding that we have established to this point. More opportunities for those who are keen and interested to come on board in the coming quarter.

If you do have anyone you know who may be able to take up new challenges in the area of Publications, Writing, Editorials or skills related to Multimedia, Branding and web-design, do drop us a note at msjuman@bigpond.com.

Delivery of Photo & Video For Fund Raising Project Roxburgh Rise Primary School

Following on to the event Photo & Video coverage by Mobistudios, we developed a secured login web-based order system for the parents to make orders for the photographs of the events.

The web-based order system has helped in managing the photographic print orders in a very systematic and easy manner that has helped the school to reduce the need for additional reasources or manpower to take in the orders. The great teamwork and collaboration by the team

at Mobistudios and the school concert organisers was one of the key success formula of the project. If you need more info on the event coverage services by Mobistudios, do call or write to us for more info.

Industrial & Commercial Projects for the Quarter

Mobistudios kicked off the final quarter with four Branding projects for a local melbourne based business. The projects covered a wide range of activities that includes:

- Logo Design activities
- Products Photography
- Web-design
- Publication works - Pamphlet & Brochures Design
- Product documentation development
- User manual development
- Product catalogue design
- Technical drawing for council approvals
- Floor plans and workspace layout design
- Video documentation
- Customer Education materials development

The wide job scope has helped us in building and exploring new area of competencies. We have successfully delivered a new refreshed web presence for the businesses and provided a new online product knowledge and information experience.

Watch out for the 2010 Newsletters for new updates and special promotions. Have a fun and exciting 2010 !!!
